

Info-Explorer

For Sage Accpac ERP

 The right information, at the right time, at the right price

What is Info-Explorer?

Info-Explorer will help you increase the performance of your business with a powerful reporting and analysis tool that has been designed to optimise your reporting from Sage Accpac ERP.

It allows you to:

- Focus on what is important to measure.
- Empower your people with the right information at the right time.
- Cater for your individual reporting needs.

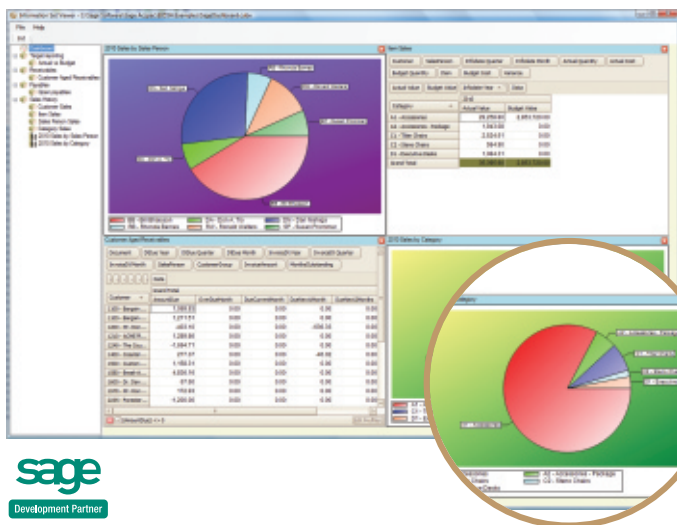

Info-Explorer helps address the following pains and issues experienced by many businesses today:

- Lack of accurate and timely reporting information resulting in guesswork and poor decision making.
- Key operational data not available for reporting.
- Time consuming and inefficient report preparation processes.
- Over reliance on spreadsheets for reporting.
- Business and productivity monitored using intuition and not operational metrics and targeted financial outcomes.

A powerful asset for your business

Info-Explorer will help you:

- Reduce costs and improve productivity.
- Make key business information available, resulting in better decision making.
- Improve customer service and loyalty through better customer insight.
- Gain visibility to potential problem areas.
- Leverage your existing investment in Sage Accpac ERP to gain real time visibility to business processes.
- Improve financial performance.

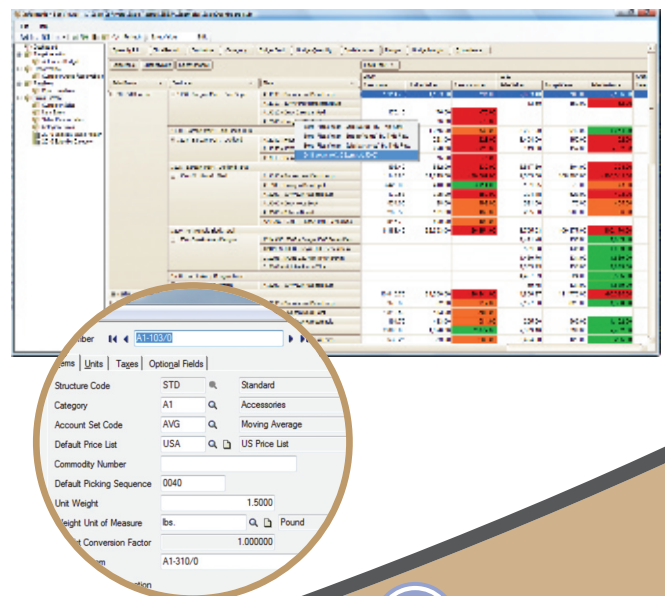

Info-Explorer

Info-Explorer allows you to summarize, drill down into and “slice and dice” your Sage Accpac ERP data in real time, giving you a clear insight into your business operations helping you make the right decision, every time. Analyse your Accpac data using a cube viewer for intuitive, multi-dimensional, slice and dice and graphical reporting with drill down in real time. Analysis can be done on-line or off-line.

Powerful Business Intelligence without the usual price tag! This means that your Sage Accpac ERP data becomes meaningful information which can be analysed on the fly.

Key benefits and features:

- Turn your Sage Accpac ERP data into OLAP cubes and dashboards, allowing you to “slice and dice” and analyse your data in real time.
- Create your own formatting styles to highlight results - for example “traffic light” reporting.
- Save multiple views per cube.
- Create multiple charts per cube.
- Create dashboards based on views and charts.
- Views can be exported to Excel and CSV.
- Works on or off-line.
- Optionally schedule cube extracts with Orchid’s Process Scheduler module.
