

Sage Accpac

Extended Enterprise Suite

Sage Accpac Intelligence

Sage Accpac Intelligence empowers you to quickly and easily obtain the information you need for operations and strategic planning from your Sage Accpac solution. Effortlessly create reports and analyze data, utilizing the familiar Microsoft® Excel® application. With Sage Accpac Intelligence you can spend more time focusing on information analysis and interpretation, and less time pulling the data together. You have the freedom to build your business intelligence solution to fit your business. Choose from:

Report Manager Licenses*

The Report Manager allows you to author new reports (organizing, creating, editing), as well as filter and aggregate data. This tool also allows you to set permissions and security for reports.

Report Viewer Licenses

This tool provides you with basic editing capabilities (filtering and changing of parameters) and drill-down functionality on existing reports/templates. You can provide Report Viewer licenses to staff members who do not need to create new reports.

Connector Module

The Connector Module further simplifies financial managers' day-to-day operational tasks, allowing access to the information they need from multiple sources and consolidation of data from multiple companies. The Connector Module allows for consolidations and connectivity to unlimited ODBC data sources.

Analysis Module

Support business strategy and decision making through advanced analysis of trends and what-if scenarios. The Analysis Module lets you utilize built-in Microsoft Excel Pivot Tables to get insight into information that goes beyond transactional data. Use the Analysis Module to create OLAP cubes, which enable multidimensional analysis of your data.

Features

ACCESS BUSINESS-CRITICAL INFORMATION

Accurate, readily available, and intelligent information is imperative to driving daily business decisions. Unifying all of your data into one solution creates a true view of your business, which is vital to growth and profitability. Schedule reports to run during off-peak hours and distribute through e-mail for timely delivery no matter where recipients are located. With improved visibility into real-time information comes the ability to better manage exceptions and adjust quickly to meeting changing customer needs.

COMPLEX REPORTING MADE EASY

Save time and get more accurate reports by eliminating redundant data entry efforts through direct integration with Sage Accpac Extended Enterprise Suite. By pulling information already in your system, Sage Accpac Intelligence automatically knows your fiscal periods, chart of accounts, detail transactions, and various types of balances. Sage Accpac Intelligence provides several standard report templates with your solution, so you can focus on interpreting information to make faster, better business decisions. Of course, you can also easily create new reports based on the included templates or from scratch utilizing the familiar interface of Microsoft Excel.

Templates include Financial Analysis Reports • Dashboard Analysis • General Ledger Transaction Details • Inventory Master • Purchase Master • Sales Master • Top 5 Customers • Top 5 Products • Top 5 Vendors

INSIGHTFUL DECISIONS

The Dashboard Analysis report provides a one-page summary of key business information, featuring “Top N” details on customers, items, and expenses. View information both textually and graphically to help with daily and long-term planning. In addition, comparative Profit and Loss figures are displayed for both the current month and financial year-to-date figures. You can easily drill down to get further insight into the numbers. The bottom line—better, faster, and smarter decisions provide your organization with a significant competitive advantage.

RELY ON FLEXIBLE, POWERFUL ANALYSIS

Support business strategy and decision making through advanced analysis of trends and what-if scenarios. The Analysis module allows you to utilize built-in Microsoft Excel Pivot Tables to get insight into information that goes beyond transactional data. You can create OLAP cubes, which enable multidimensional analysis of large volumes of data, and overcome Excel row limitations. However, there is no need to start from scratch, as purchasing the Analysis tool provides several reports, such as an Inventory, Sales and Financial cube.

MULTINATIONAL AND MULTICOMPANY CAPABILITIES

Pounds. Pesos. Dollars. Francs. Yen. No matter what currency you trade or how many companies you run, Sage Accpac can empower your company for multientity and global enterprise. Sage Accpac Intelligence allows you to view your reports in multiple currencies to get a true picture of how international commerce is affecting your bottom line. You can also utilize the Connector module to view business intelligence for multiple Sage Accpac company databases, or any ODBC-compliant data source from our collaborative ecosystem, such as SageCRM, Sage Abra HRMS, or third-party solutions.

SECURE BUSINESS INTEGRITY

Safe, secure, and controlled! Protect the sensitive information in your business. Sage Accpac assures comprehensive security at variable levels, protecting your important business intelligence from unauthorized access or manipulation.
