## Sage 300 ERP 2014

Provide a better customer experience, increase your revenue, and grow with confidence.

- 1. Easily connect and expand your business—**Leverage mobile and cloud solutions.
- 2. Get paid faster—**Give your customers access to view and pay invoices online provided by Sage Billing and Payment.
- 3. Increase revenue per salesperson and impress customers—**Close deals in the field using the Sage Mobile Sales app on your iPad.
- 4. Check profitability at a glance—**Use the Profitability Dashboard for Sage Intelligence Reporting to see if customers, products, and salespeople are profitable.
- 5. Connect your sales team—**Track sales in the field using an iPhone app, Windows 8, and Sage CRM.
- 6. Reduce stock outs and excess inventory—**Optimize inventory and increase profitability with Sage Inventory Advisor.

## Sage 300 2016

Be more efficient and compliant.

- 1. Ensure compliance with ACA requirements—**My Workforce Analyzer,\* a tool that works with Sage Payroll 7.2, and helps you maintain ACA compliance by analyzing work hours of full-time and part-time employees, determining coverage eligibility, and generating all reports mandated by the IRS.
- 2. Connect your entire business—**Sage 300 is integrated with the latest versions of Sage Payroll (7.2), Sage Intelligence Reporting (7.6), and Sage CRM (7.3), allowing you to improve effectiveness and make better decisions across your business.
- 3. Save time posting new records—**Post invoices, receipts, adjustments, refunds, and more directly from the entry screens for GL, AP, AR, and Bank Reconciliation instead of having to run an entire batch.
- 4. Improved Tax Tracking reports—**When printing the Tax Tracking report by fiscal period, you can now specify a range of fiscal year/periods to include on the report.
- 5. Save time when designing reports—**Automatically detect missing accounts from reports, exclude zero rows, and set dynamic ranges that detect any changes to the General Ledger.

## Sage 300 2017

Improve usability, streamline workflow, and increase business transparency.

- 1. Optimize your workflow—**Batch credit card processing is now available, improving efficiency and minimizing errors. You also have the ability to set up regular reminders in the scheduler.
- 2. Benefit from smarter transaction processing—**Quick preauthorize and quick charge have been added to Sage Payment Solutions, allowing you to process payments faster with just one click of the mouse.

## Sage 300c 2017

Get all of the latest enhancements, mobile access from any device, and a shortened learning curve with a new modernized user interface.

- 1. Increase business visibility—**Create and share notes related to customer, vendor, or inventory item, which will be displayed when creating any transaction associated with them. Notes is an intuitive new way of keeping track of your most important, or your most problematic issues, ensuring business transparency across the organization.
- 2. Simplify inventory management—**Sage Inventory Advisor Basics provides the ability to quickly create optimal purchase recommendations, helping you easily identify what to buy and when, based on accurately generated forecasts. Improved visibility and smarter purchasing means stock-outs are minimized and excess stock is reduced.
- 3. Customize your web experience—**Further enhancements to the web screens improve the usability and accessibility of Sage 300c. New customization options allow users to remove fields and labels that are not required, and you can edit field labels to suit the needs of your business. Moreover, web screens will automatically adjust to remove empty white space.
