

PRODUCT SHEET

Nectari for Sage Intacct

Elevate your Sage Intacct analytics and reporting with Nectari Business Intelligence.

Supercharge your organization’s insights with Nectari Business Intelligence, a complementary solution that elevates your Sage Intacct analysis and reporting experience. Discover the benefits your organization can gain from Nectari’s robust BI capabilities.

Easy to use for everyone

Nectari empowers Sage Intacct users and removes the barrier of relying on IT to provide reports. Users are self-sufficient and can customize views for their specific requirements.

The screenshot shows the Nectari interface with a report table and a 'DIMENSIONS AND MEASURES' panel. Callout 1 points to the dimensions panel, callout 2 points to the report filters, and callout 3 points to the view toggle icons.

Groups	Quantity	CAD Currency Total	Total
2023	306.00	108,992.80	77,852.00
> CUST-00106 Mercado Sidewalk Cafe	95.00	4,788.00	3,420.00
> CUST-00123 A1 Security Supply	65.00	34,041.00	24,315.00
> 21052 Defender 8 CH Surveillance System	10.00	9,520.00	6,800.00
> 21117 Defender PRo 16CH Smart Security	10.00	19,600.00	14,000.00
> AL101-TX Defender Add-on Motion Sensor	35.00	2,695.00	1,925.00
> CM600 First Alert CMOS Color Day/Night Camera	10.00	2,226.00	1,590.00
> CUST-00121 Tel-Tec Security Systems	42.00	20,330.80	14,522.00
> CUST-00119 Tti Star	37.00	21,620.20	15,443.00

> 21052 Defender 8 CH Surveillance System	9.00	8,568.00	6,120.00
TOTAL	682.00	138,109.30	98,649.50

1. Get results faster: Drag and drop dimensions and measures and change your filters on the fly.

2. Format your worksheets: Change the look of rows and columns, and sort and aggregate data for your needs.

3. Change your views: Transition from a worksheet to a bar graph then back to a pie chart.

Users can save time and build and edit their reports all on one screen.

Users can work in the Nectari Excel Add-In or bring Excel functionality to the web with Nectari Workbooks. Access your data and eliminate the need to update worksheets manually. Create dynamic ad-hoc reports by combining data into a single worksheet where you can perform mathematical calculations and drill down into the details.

Access all your data

- Extract, Transform, and Load (ETL) data with Nectari DataSync
- Consolidate multiple Sage Intacct tenants
- Manage enterprise-wide, on-prem and cloud data
- Report on multiple currencies for financial and non-financial data
- Report on unlimited user-defined dimensions and custom fields

Leverage reporting templates and dashboards

Why develop complex data models when Nectari provides out-of-the-box views and dashboards tailored to Sage Intacct? These pre-configured templates require minimal set-up and are ready to use from day one. Nectari's Universal Data Models consolidate and access large amounts of data and provide KPIs for Finance, Sales, Inventory, and CRM. Whether you use the predefined reports or create your own, Nectari has everything you need to analyze your enterprise's performance and make better business decisions.

Collaborate between teams

Nectari provides collaboration tools to help users share the right information with internal and external stakeholders. Email, export, print, and send an external link to the report you want to share. Benefit from advanced distribution features such as conditional alerts, data security, reporting packs, and more.

Keep your data secure

Nectari provides granular security options managed from a central location and implemented across individuals or groups of users. Instead of producing various copies of the same report with distinct filters for diverse users or groups, only one report needs to be generated.

The flow of data

Manage your data	Gain visibility and insight	Empower all users	Collaborate securely
