## Conligo OrderDesk

### Customer Orders made Easy!

Conligo OrderDesk provides your sales and customer service reps the ability to easily take orders into your Sage 300 or ERP systems. The Conligo OrderDesk is a cloud-based application that is completely configurable and can be utilized as a standalone application or integrated into your Sage CRM platform. Conligo OrderDesk is also integrated into Conligo Pay to process payments right away!

# Order Fast. Get Paid Faster!

## WHY CHOOSE US?

- EFFICIENCY**  
Conligo OrderDesk provides an easy-to-use order form that displays real-time customer and inventory lists with complete pricing.
- EASE OF USE**  
Conligo OrderDesk provides the ability to do a number of different sales tasks, from adding/updating shipping addresses to viewing active orders and order history, to converting quotes to orders with a single click!
- SUPPORTS**  
With Conligo OrderDesk, you are able to use multi-company support, get accurate shipping rates from FedEx, UPS and more, and get the right tax information with Avalara.

Sage 300 and  
Other ERP Systems

Conligo OrderDesk integrates seamlessly into Sage 300 and other ERP systems. Move your existing ERP or accounting platform into the cloud by taking advantage of specific B2B applications without the big investment.

## GREAT SERVICES

- Get up-to-date inventory status remotely, including stock availability or arrival dates.
- Print customer invoices and quotes directly from your browser.
- Easily integrate OrderDesk into Conligo OneView, empowering your customers to view and pay invoices, view orders, and add items to an order.
